PROJECT 01: PERSONAL DEVELOPER PORTFOLIO

A clean, responsive personal portfolio website developed to showcase professional experience, key skills, and featured software engineering projects. Designed with an ultra-minimal navigation bar and structured section hierarchy.

Portfolio Main Landing & Skills Overview

UI Layout

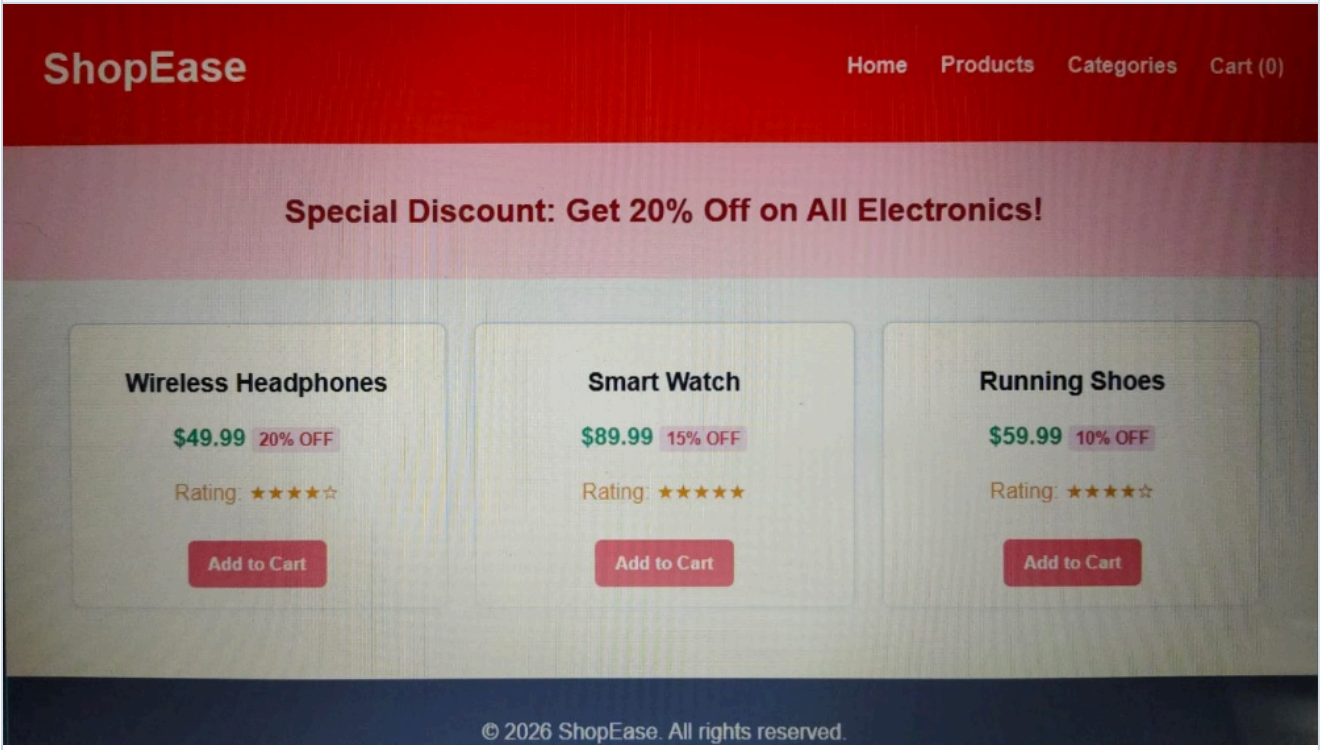

Key Highlights: Includes custom modern typography, flexible container grids for Technical Skills (HTML5, CSS3, JavaScript, React.js), and direct action links.

HTML5 CSS3 JavaScript React.js

PROJECT 02: SHOPEASE E-COMMERCE PORTAL

ShopEase Featured Products & Promotional Header E-Commerce UI

Key Highlights: Features a top promotional banner ("Special Discount: Get 20% Off on All Electronics!"), interactive product cards (Wireless Headphones, Smart Watch, Running Shoes) complete with discount tags, star ratings, and action buttons.

E-Commerce UI | Flexbox Layout | CSS Components

PROJECT 03: FOODIEEXPRESS DELIVERY INTERFACE

FoodieExpress Landing Page & Menu Catalog Food Delivery UI
